New submission on HubSpot Form "Candidate questionnaire"

Page submitted on: [Candidate questionnaire – RE-OPEN ARKANSAS](#)

First name:

Greg

Last name:

Payne

Email:

paynelawfirm@yahoo.com

Phone number:

4793207447

Street address:

3908 SW Peachwood Dr

City:

Bentonville

State/Region:

AR

Zip code:

72713

Office sought:

Arkansas House of Representatives

Website URL:

payneforarkansas.com

Do you, or does anyone in your household, have a financial or employment interest in any healthcare related business?:

No

Should the state be advertising and otherwise promoting the vaccine using taxpayer dollars? Why or why not?:

Of course not. Pharmaceuticals are a huge for profit industry and it raises a series of questions of ethics and the appearance of impropriety

Did ADH and ABC have authority to issue the mask-related fines to small businesses last year?:

No

Should the legislature force ABC and ADH to return the mask-related fines collected last year?:

Yes

What is your position on SB 730 (the Garner bill)?:

For

What is your position on SB 731 (the Ballinger bill)?:

For

What is your position on SB 732 (the Blake Johnson bill)?:

For

What is your position on SB739 (the Hammer bill)?:

For

Do you believe the state has to respect and otherwise enforce unconstitutional federal mandates? At what point does state sovereignty apply?:

State sovereignty applies to all issues of public health and safety

Are you, or is anyone in your household, a public school teacher or otherwise employed by a public school?:

No

Do you believe that CRT, or some form of it, is currently being taught in Arkansas schools?:

Yes

What is your position on CRT?:

It's polarizing, destructive and an absolute distortion of American history

What is your position on school choice? If you support it, what form do you support (e.g. complete choice, limited vouchers, choice limited to other public schools)?:

It needs to happen. Tax dollars for education should follow the child.

Should any abortions be legal in the state of Arkansas?**Please explain.:**

No. Life is life. But it is a legislative matter for each state to decide.

Are you in favor of the concept of limited government, and do you commit to support the Republican Party platform as written?:

Yes, 100%

Do you support reducing / eliminating the state income tax? If so, what process would you support to accomplish it (e.g. gradual reduction, drastically cut state government, increase sales or property tax)?:

Qualified yes. I'm generally in favor in the interest of cutting off government revenue and personal income taxes, but I'm concerned that a reduction of internal revenue from state income taxes will prompt increased dependence on federal funding.

Have you accepted (or would you accept) money from Tyson, Walmart, the state chamber, or the hospital lobby?:

No

What bill should the legislature pass immediately to do the most good for Arkansans?:

Education reform

Why did you choose to run specifically for this office and not another one?:

Practically speaking, it's a newly created as yet unoccupied state hence the most direct path to a legislative seat to where I hope to apply my own ideas of conservative reforms into legislative action.

On which legislative committee are you most interested in serving, and why?:

Judiciary because there are much needed reforms necessary in many areas of both civil and criminal procedure

What is your top priority once in office?:

Restoring faith in government that at least some in government are there to help the citizens of the state of Arkansas and protect their constitutional rights.

Is there anything else you would like to share?:

I think with a new governor we have the opportunity to transform the state into an oasis of liberty safe from intrusion of a federal government intent on destroying our republican form of government
