New submission on HubSpot Form "Candidate questionnaire"

Page submitted on: [Candidate questionnaire – RE-OPEN ARKANSAS](#)

First name:

Wade

Last name:

Dunn

Email:

wadedunn1@gmail.com

Phone number:

479-806-3578

Street address:

2734 Old Chismville Road

City:

Greenwood

State/Region:

AR

Zip code:

72936

Office sought:

State Representative District 47

Website URL:

@wadedunnstaterep

Do you, or does anyone in your household, have a financial or employment interest in any healthcare related business?:

No

Please describe.:

n/a

Should the state be advertising and otherwise promoting the vaccine using taxpayer dollars? Why or why not?:

No. Vaccine should be a personal choice & if someone needs advice, they should consult their personal Doctor.

Should the new legislature re-elect or replace current leadership?:

Replace current leaders

Did ADH and ABC have authority to issue the mask-related fines to small businesses last year?:

No

Should the legislature force ABC and ADH to return the mask-related fines collected last year?:

Yes

What is your position on SB 730 (the Garner bill)?:

For

What is your position on SB 731 (the Ballinger bill)?:

For

What is your position on SB 732 (the Blake Johnson bill)?:

For

What is your position on SB739 (the Hammer bill)?:

For

Do you believe the state has to respect and otherwise enforce unconstitutional federal mandates? At what point does state sovereignty apply?:

The state should not be enforcing any unconstitutional mandates or laws regardless of who wrote them. The states created the federal government with very specific

powers. The federal government can only work within the framework of the constitution, & without infringement of the Bill of Rights.

Are you, or is anyone in your household, a public school teacher or otherwise employed by a public school?:

No

Do you believe that CRT, or some form of it, is currently being taught in Arkansas schools?:

Yes

What is your position on CRT?:

CRT is a limiting factor on children's ability to achieve their individual goals.

What is your position on school choice? If you support it, what form do you support (e.g. complete choice, limited vouchers, choice limited to other public schools)?:

I am for a complete choice. If a school is underperforming or teaching a political agenda, instead of facts or history, the parent should have the right to take the child to a better school & the money should follow them.

Should any abortions be legal in the state of Arkansas?

Please explain.:

No. I believe that life begins at conception & that any abortion is nothing more than murder.

Are you in favor of the concept of limited government, and do you commit to support the Republican Party platform as written?:

Yes, 100%

Do you support reducing / eliminating the state income tax? If so, what process would you support to accomplish it (e.g. gradual reduction, drastically cut state government, increase sales or property tax)?:

Yes, drastically cut state government.

Have you accepted (or would you accept) money from Tyson, Walmart, the state chamber, or the hospital lobby?:

No

What bill should the legislature pass immediately to do the most good for Arkansans?:

Budget reform/zero based budget.

Why did you choose to run specifically for this office and not another one?:

I'm running against an opponent who ran as a Republican but votes with the liberals. In fact, he was ranked 89th out of 100 on the Conduit News Conservative Scorecard for representatives. He also voted against HB1570 which is a bill to ban sex change surgery on adolescents.

On which legislative committee are you most interested in serving, and why?:

Taxation. In the last 16 years of owning small businesses, I have watched numerous taxes being passed that are near impossible to be implemented, example: car wash tax & candy tax.

What is your top priority once in office?:

Zero based budgeting for state agencies & departments so that we stop building bloated budgets on top of bloated budgets. Also, a bill that requires teachers & administrators to teach the Constitution & the Bill of Rights as it is written, not their opinion.
