New submission on HubSpot Form "Candidate questionnaire"

Page submitted on: [Candidate questionnaire – RE-OPEN ARKANSAS](#)

First name:

Joshua

Last name:

Bryant

Email:

josh@bryantforarkansas.com

Phone number:

5015002206

Street address:

2032 S Pleasant Ridge Road

City:

Rogers

State/Region:

AR

Zip code:

72756

Office sought:

State Senate 32

Website URL:

BryantforArkansas.com

Do you, or does anyone in your household, have a financial or employment interest in any healthcare related business?:

No

Should the state be advertising and otherwise promoting the vaccine using taxpayer dollars? Why or why not?:

Absolutely not. Taxpayers should in no way fund big pharma through promoting for profit products.

Should the new legislature re-elect or replace current leadership?:

Replace current leaders

Did ADH and ABC have authority to issue the mask-related fines to small businesses last year?:

No

Should the legislature force ABC and ADH to return the mask-related fines collected last year?:

Yes

What is your position on SB 730 (the Garner bill)?:

For

What is your position on SB 731 (the Ballinger bill)?:

For

What is your position on SB 732 (the Blake Johnson bill)?:

For

What is your position on SB739 (the Hammer bill)?:

For

Do you believe the state has to respect and otherwise enforce unconstitutional federal mandates? At what point does state sovereignty apply?:

The US is a collection of sovereign states who should come together for common defense (border security), interstate highway system, and not much more.

Are you, or is anyone in your household, a public school teacher or otherwise employed by a public school?:

No

Do you believe that CRT, or some form of it, is currently being taught in Arkansas schools?:

Yes

What is your position on CRT?:

It's an attempt to destroy the fabric of US society.

What is your position on school choice? If you support it, what form do you support (e.g. complete choice, limited vouchers, choice limited to other public schools)?:

Support; money should follow the student.

Should any abortions be legal in the state of Arkansas?

Please explain.:

No taking of innocent human life.

Rape/incest victims can not be healed/made whole simply by killing any child who may result.

Are you in favor of the concept of limited government, and do you commit to support the Republican Party platform as written?:

Yes, 100%

Do you support reducing / eliminating the state income tax? If so, what process would you support to accomplish it (e.g. gradual reduction, drastically cut state government, increase sales or property tax)?:

Yes; gradually through eliminating numerous programs throughout almost every executive agency and lowering the budget expenses. I would create a three year rotation of held budgets and reduce the income tax based upon the percentage that remained unallocated.

Have you accepted (or would you accept) money from Tyson, Walmart, the state chamber, or the hospital lobby?:

Yes

What bill should the legislature pass immediately to do the most good for Arkansans?:

Complete medical freedom and liability on any who try to circumvent.

Why did you choose to run specifically for this office and not another one?:

Being in the House was fulfilling but I feel as though I

can be more effective in the a Senate.

On which legislative committee are you most interested in serving, and why?:

City/County. Local control is hailed as a battle cry to the woke. Being in a position to set up guard rails for local issues is important. My experience on Quorum Court and dealing with city councils makes me effective at most arguments.

What is your top priority once in office?:

Champion other conservatives to remain conservative under pressure.

Is there anything else you would like to share?:

I helped write and/or cosponsored most of the vaccine and mask freedom bills. I remain ready to fight.
